Phone: +62 812 19004984 Email: matthew_cc@outlook.com Portfolio: matthewcc123.github.io

PROFESSIONAL SUMMARY

Finance and Technology Professional with experience in financial operations, process automation, and software development. Proven ability to improve operational efficiency by developing internal tools, automating workflows, and optimizing business processes. Combines strong analytical thinking, accounting knowledge, and technical expertise in C# (.NET), SQL, and system integration to bridge business and technology needs. Adaptable, fast-learning, and passionate about continuous improvement through technology.

TECHNICAL SKILLS

Programming & Development: C#, .NET, HTML, CSS, JavaScript, Unity3D
Database: MS SQL, SQLite
Tools & Technologies: GitHub, Visual Studio, SAP, Microsoft Office
Design & Creative Tools: Adobe Photoshop, Adobe Illustrator, Blender, Figma

WORK EXPERIENCE

Sinarmas Distribusi Nusantara – Accounts Payable Associate

January 2023 – Present

- Verified the completeness and accuracy of invoicing documents and coordinated with internal and external stakeholders for invoice verification.
- Monitored invoice processing and payment transactions to ensure timely completion.
- Handled ad hoc administrative and financial support tasks.
- Prepared weekly accounts payable outstanding reports to track pending and completed payments.
- Developed internal tools using C# (.NET) to improve efficiency in financial operations.

Koco – Game Developer

July 2022 – October 2022

- Designed and developed game systems using Unity3D and C#.
- Implemented core gameplay mechanics, game state management, and UI systems.
- Collaborated with designers to translate gameplay concepts into functional features.
- Performed debugging, testing, and performance optimization to ensure a smooth user experience.

Freelance – Web Designer

September 2018 – September 2019

- Developed responsive websites using HTML, CSS, and JavaScript.
- Managed full development lifecycle from design to deployment.
- Built user-friendly interfaces based on client requirements.

PROJECTS

Finance Automation Tools (C#, .NET, SQLite)

- Developed internal tools to automate invoice processing and financial workflows.
- Integrated external APIs to extract and process structured data (JSON).
- Reduced manual data processing and improved operational efficiency.

Invoice Capture System (OCR & Computer Vision)

- Built an automated invoice processing system using OCR (Tesseract) and barcode scanning (ZXing, OpenCV).
- Designed a data extraction pipeline to convert unstructured documents into structured data.
- Integrated the system with ERP workflows for improved accuracy and processing speed.

Game Development (Unity3D C# / GameMaker GML)

- Developed game systems including gameplay mechanics, UI, and player interactions.
- Developed structured and maintainable game systems with a focus on performance optimization and smooth user experience.

CERTIFICATIONS

IT - AI Agent for Programming – Hacktiv8 Indonesia

May 2026

LLM and IBM Granite Basics • Prompt Engineering • AI Agent Design and Workflow

C#.NET Core 7 with MS SQL Complete Beginner to Master 2023 – Udemy

November 2023

C# Basics • .NET Core 7 API Development • MS SQL Server and Azure

RevoU Mini Course Data Analytics – RevoU

October 2023

Introduction to Data Analytics • Visualize data with Tableau

JTI TechCamp For SAP Finance – PT. Jasa Teknologi Informasi IBM

December 2022

Core Consulting Skills • SAP S/4HANA Overview • Financial & Accounting Deep Dive in SAP

Finalist Indie Game Ignite – Compfest 11

September 2019

Game Development

EDUCATION

Bachelor of Accountancy – Universitas Bunda Mulia

2017 – 2021

GPA: 3.53 / 4.00

UI/UX Design Course – Purwadhika Digital Technology School

2024

ADDITIONAL INFORMATION

- Strong analytical thinking and problem-solving skills.
- Fast learner with high adaptability to new technologies.
- Able to work independently and collaboratively in team environments.
- Passionate about software development and continuous learning.
